

These Wings

D D D D

Night's darkest hour grew seemingly darker D D
Cloaked all around me like mist and like haze D D
Soaking my hair and my skin and my brain D D
My limbs dragged like lead through the rain. D **D** **D**

I thought that this night would never end D D
Gross darkness circling around my head D D
Dragging my feet, head bent way down too low D D
Just seemed like no end to this dread D **D** **D**

A D
Then I saw the light in your eyes and I knew

A **D** **D**
You were calling me, drawing me home

A D
And my wings they're unfolding

A
They're drying and spreading

A **D** **D**
As wide as the smile on my face

G G
The further I go the longer I walk

G G **C** **C**
The harder it seems but the closer I get to you

C F
There's strength in my bones and a wind in my sail

C F
I can soar high above all these valleys I've known

G G
I can cross any desert and climb any mountain

G C C
These wings are gonna take me home

G C
And I've seen the light in your eyes and I know

G C C
You're calling me, drawing me home

G C
And I've seen the light in your eyes and I know

G C C
You're drawing me taking me home.
