

Amsterdam

G C
Amsterdam, city of a thousand contradictions

G C
Amsterdam, a place where light and darkness grow together

F
A beautiful masquerade performing before your very eyes

C
Oh the masters paint a pretty face

G C G
But can't erase the desolation inside

C
Oh what I would give you Amsterdam?

G C G
To ease the strain and sadness you're failing to hide

G C
Amsterdam, remember when we used to dance together

G C
Amsterdam, I had intended going on forever

F
What was it that turned your head as if I didn't already know

C
All the guarantees were made to you

G C G
Of sunny days and rooms of silver and gold

C G
Just remember when it starts to rain and turns to stone

C G
The covenant we both hold.

INSTRUMENTAL: WHOLE VERSE

G C
Amsterdam, there's something calling out for your attention

G C
Amsterdam, a matter that nobody cares to mention

F
You walked from me long ago promising never to return

C
Oh but now and then you look my way

G C G
And I can see a little spark still remains

C G
Even as you carry out your plans, your reckless dance

C G
I promise you I will wait

C G
I will wait for your return

C G
I will wait for your return

C G
I will wait for you Amsterdam
