

This Wretched Man

D A D

This wretched man stands here today

G Em

Encumbered by his sinful way

F#m7 Bm

Has built his life on shifting sand

Oh who will save this wretched man

This wretched man has had it all

All he desired at beck and call

No thought of God or fellow man

Oh who will save this wretched man

This wretched man now understands

His endless wealth and strength of hand

Amounts to nothing in Gods plan

Oh who will save this wretched man

Now as my time draws to an end

I find no place to make amends

And now to face one fear alone

That I must reap from the seeds I have already sown

But for a chance to start again

But for a voice to call me in

But for a touch of saving grace

Oh who will save

Oh who will save

Oh who will save this wretched man.
