

Toss Me in the Water

Intro: A (8 bars)

C7

God looked down on a certain town

He saw the people being bad. It made him feel sad.

He said to Jonah go and tell them they got to change their ways.

But Jonah caught a boat going the other way.

D#7

Then the seas got rough cause the winds blew up

And the boat started spinning and began to break up.

E7

All the sailors said why is this happening to us.

Jonah knew the answer and his reply was:

Chorus x 2: A (Riff)

Toss me in the water throw me over board

Toss me in the water or the boat go down

Toss me in the water throw me over board

Make the boat stop spinning round and round.

C7

So they lifted him up and threw him over the side

And the storm died down making an easier ride

Then the big fish come and swallowed Jonah down

And for three long days it carried him around

D#7

Then Jonah said "sorry Lord I'll do what you say,
Please get me out of here and I'll be on my way"

E7

So the fish coughed him up onto the beach
And Jonah walked into town and he began to preach.

Chorus x 2: A (Riff)

Tossed me in the water threw me over board
Tossed me in the water or the boat go down
Tossed me in the water threw me over board
Made the boat stop spinning round and round

C7

And many many people were saved that day
From the wrath of God because they changed their ways

B7

So when God says to do something it helps to obey

E7

Then you'll never have to say like Jonah did that day

Chorus x 3 A (Riff)
